Sir :

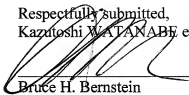

This is to make of record January 26, 2009 and February 2, 2009 telephone calls between Examiner Rao and Applicants' representative Arnold Turk.

During the telephone calls, Applicants' representative requested the listing of documents cited by the Examiner on a Form PTO-892 so that the face of the issued patent will reflect the Examiner's consideration of the documents. The Examiner indicated that the record will be corrected to include a Form PTO-892 listing documents cited by the Examiner in the enablement rejection in the Final Office Action mailed June 5, 2007. In particular, the Examiner indicated that Cecil Textbook of Medicine, 20th Edition, Volume 1, page 1004-1010, and Hutton et al., Trends in Molecular Medicine, 7(10), 467-470, 2001 will be listed on the form.

If any fee is deemed necessary for consideration and/or entry of this paper, the Patent and Trademark Office is hereby authorized to charge Deposit Account No. 19-0089.

Should the Examiner have any questions, the Examiner is invited to contact the undersigned at the below-listed telephone number.

Respectfully submitted,
